

**NAYLAND
VIRTUAL
OPEN
GARDENS**

**SUNDAY
14th JUNE
2020**

Nayland Open Gardens started as long ago as the summer of 1978 , therefore, it was a great pity that this year's Coronavirus restrictions meant the Society had to cancel this year's event. However, a Society member enquired whether we might create a "virtual" Open Gardens and the Committee welcomed the concept.

Accordingly, we are delighted to show photographs of 32 gardens most of which have opened for many years to the public. The majority of the photos were taken in the period from the 1st to the 7th of June although a few photos which fall outside this period have been permitted in the album. A list of the gardens featured appears below.

Alongside this we are also pleased to show a wonderful video taken by Nayland resident Stuart Howells featuring a number of Nayland gardens. Please click on this link below to view the film: <https://youtu.be/RTIxN0xILG4>

In the absence of experiencing the gardens in reality we hope you enjoy this two-dimensional presentation.

Our thanks go to the garden openers for their efforts.
